

Ciitizen Onboarding Patient Guide

Welcome to Ciitizen!

Our mission is to empower seven billion citizens across the planet with all of their health data. When you control your data, you have more options. For your care and to advance research to find cures.

This guide will walk you step-by-step through the short onboarding process.

TIPS

Before getting started, please have the following ready:

- Your Driver's License
- if on behalf of a minor, their Birth Certificate
- if your loved one is over 18, their healthcare proxy

We recommend taking a picture of the documents with your phone and emailing them to yourself so that you can quickly upload them from your computer.

BPANWARRIORS.ORG
You are not alone

Ciitizen is excited to launch a next generation, digital BPAN Natural History Study.

How it works:

- No clinic visits required
- Clinical data will be collected from patient's health records, organized and summarized, free of charge
- Caregivers retain full control of patient's health records
- With your consent, clinicians, researchers and biopharma can access anonymized data to aid in research
- Available now in the US with plans for worldwide availability
- Onboarding to the Ciitizen platform requires less than 10 minutes of caregiver time

Get Started

TIPS

Need help through the process? Click on the chat button.

Get Started

✕

To join the Ciitizen platform, you MUST meet the following criteria:

- Patient has received care in at least one US institution. Note, we are only supporting patients within the US currently.
- Patient has a genetically confirmed BPAN alteration.
- Caregiver speaks English.

Do you and the patient meet these criteria?

Yes

No

Consent #1: BPAN Warriors & Ciitizen Collaborative Research Databank

BPAN Warriors is an advocacy group dedicated to promoting research and education for the diagnosis, treatment and cure of Beta-propeller protein-associated neurodegeneration (BPAN) and to provide support to affected individuals and families.

BPAN Warriors has engaged with Ciitizen to collaborate in creating a databank of clinical and survey data on a cohort of children and adults living with BPAN, to be utilized for future research needs in collaboration with academic and pharmaceutical researchers (the "Databank").

Ciitizen is a novel, patient-mediated online platform which allows patients to collect and store their medical records. Ciitizen turns these medical records into structured, longitudinal data that can be shared by patients (or their parents or legal

- (for adult) I consent to participating in the Ciitizen-BPAN Databank
- (for parent/guardian) I am the parent or guardian of a child and give consent to the child participating in the Ciitizen-BPAN Databank
- I do not consent

< Previous**Next >**

When consenting as a parent or guardian, you will be prompted to answer a few questions.

(for adult) I consent to participating in the Ciitizen-BPAN Databank

(for parent/guardian) I am the parent or guardian of a child and give consent to the child participating in the Ciitizen-BPAN Databank

I do not consent

Child's First Name *

Would you like to join our community of patients committed to fighting disease together?

A de-identified summary of your health data will be shared with Citizen's research partners.

1. Only your summary data is shared with research partners (like academic researchers, advocacy groups, and pharmaceutical companies); includes only select data with common identifiers like your name, address, and phone number removed.
2. You could help others by advancing scientific discovery even if you may not personally benefit from this research.
3. You will not get advance notice of specific research projects that include your data.
4. Your information will be made available to researchers until you tell us to stop. We may not be able to recover summary data that has already been shared with research partners.

You may withdraw your consent at anytime. For more information see the [Citizen Research Initiative Consent](#).
